

Scott's Heating & Plumbing has been a licensed Plumbing and Mechanical contractor in Alaska since 1986. Scott's has provided a 24hr service to the Kodiak area and surrounding villages for the past 25+ years. Scott's is a full-service plumbing and heating shop, from residential to commercial service to new installs and over the counter parts sales. We strive to get your projects done on time, if this means working a little longer, harder, we aren't going to stop until we are complete and our customers are satisfied. Scott's Heating & Plumbing is a member of AVTEC, the plumbing apprentice training program, this helps the community in educating the new and upcoming plumbers of Kodiak. Scott's crew consist of ten dedicated, hardworking full-time employees, and if needed for larger projects or busy times we don't hesitate to bring on more help. We have a fleet of rigs from flatbed's, box trucks, service vans, and a vacuum sewer/jetter truck. We excel in wet civil utilities. Sewer, water and septic work is our specialty. We have all sorts of sewer line jetters, cable machines, pipe cameras and locators to find any problem within a sewer line and locate it with our pipe locating equipment. Please see our website www.scottshp.com for more information on the services we can provide for you. Give us a call and let us know how we can help you with your next project.

Our goal is to provide our customers with a great working, aesthetically pleasing, and long-lasting products. We take a lot of pride in our work and want everything that we do to come out perfect and have our customers as happy as we are.

Scott's crew will travel all over Alaska even to the most remote places to get your job done. We can take care of getting our parts and tools to and from the job no matter the location or the job. If you have a job that has pipes, give us a call and we would love to see how we can help. We can take care of you in every plumbing aspect, from your home to running the main sewer and water down to the street into your building.
